Roe v Wade OVERTURNED! Vote NO on Proposal 3!

Our hearts were overjoyed upon hearing the Supreme Court Decision on Dobbs (Roe v Wade) on Friday, June 24th. States started to immediately enact laws that would protect the unborn. In Michigan we had a different dilemma, with help from our pro-abortion Governor, Gretchen Whitmer, the courts put a hold on our 1931 law that prohibits abortion unless necessary to save the mother's life. Over the spring and summer "Reproductive Freedom For All" gathered their signatures, and notwithstanding the many errors on their petitions, the MI Supreme Court ruled that the proposal would be placed on the ballot in November. **This is the most extreme abortion proposal Michigan has ever witnessed.** It is too extreme and goes too far— it would eliminate Michigan laws that regulate

abortion, including **parental consent laws**, laws that prohibit **partial-birth abortion**, laws that require abortion facilities to be **licensed and inspected** by the State, and allow for **abortion through 9 MONTHS**. The proposal also prohibits lawsuits from being brought against **any** individual for performing an abortion even if serious complications, or death occur. The proabortion forces want Michigan to be the center of the abortion industry and debate across the country— we ask that you all encourage and educate your friends and family to **VOTE NO on PROPOSAL 3 on November 8th**. If passed, it would be **written into Michigan's Constitution**. Please visit: supportmiwomenandchildren.org for more information.

Pro-life Gubernatorial Candidate Tudor Dixon

When casting your vote this November, or filling out your absentee ballot, remember to vote pro-life! Tudor Dixon is endorsed by the Right to Life of Michigan PAC. She is proudly pro-life. The following are some words from her statement after the decision of Roe v Wade. "Today is not just a celebration as it is an affirmation that life is precious...I am pro-life. I am pro-family. I am pro-mother. I am pro-woman.... As Governor I will support and enact policies that lift up mothers and children... We should make it easier to have and raise a family by creating policies that afford parents quality time with their children and make it easier to adopt. The whole of American government and society should unite and finally embrace pro-family policies. **You can find all other Right to Life PAC endorsements at: RTL.org/endorsements/**

"Our vision for a just America is one that fosters a culture of life, from womb to grave. One where families can have children—and afford them."

Northwest MI Fair

The Grand Traverse Area Right to Life Fair booth was front and center this year, and we had a great turnout of volunteers and Teens for Life face painters throughout the week! We were able to give out information on all topics, from human development, to abortion procedures, to end of life care. We also had handouts about the ballot proposal and urged all to vote NO! The big hit of the table was the baby fetal models that range from 6 weeks to 26 weeks. The children loved seeing these and so did a very young couple who were pregnant at 8 weeks– they had a gleam in their eye when they saw the size of their baby. There was a young girl, probably 12 years old who was very interested in our table, her mother then started to explain to her right there what our table stood for– this was probably the first opportunity she had to tell her daughter about life in the womb and what abortion does. Many stories to share and we hope hearts
